Wild West Net

Dear Fiona Lowe,

Good morning,

Regarding your query as to the total cost for bringing our service to Baxter Hall, I can confirm that in order to bring our service to Baxter Hall, all we would require is £300 to cover the full installation, all of which can be covered by a council grant.

There would be no further monthly charges going forward.

Regards

Mark

Wild West Net

Dear Fiona Lowe,

The standard installation is £100.00 with a monthly fee of £24.99 per month on a Domestic Account or £50.00 per month (VAT included) for a Business Account.

The £300.00 installation charge for Village Halls is a one off fee for the installation and Wi-Fi access to the Hall with no ongoing monthly payment.

We can certainly perform the installation for the £100.00 installation charge with the monthly payment plan if you would like?

My apologies these, that should have been made clearer.

Regards

Martin
